Education	Institute	Year	CGPA
B.E. Computer Science & Engineering	Chandigarh College Of Engineering and Technology	2022-26	7.97

EXPERIENCE

- Software Developer Intern** **Gemini Solutions Pvt. Ltd.**
 - Ensured high availability of production systems by managing data pipelines, monitoring infrastructure metrics, resolving incidents, and automating repetitive operational workflows using Python, DataDog, SQL and Autosys.

SUMMARY

Highly motivated and result-oriented computer science undergrad with a passion for technology. Proficient in C, C++, Python and Web Development. Organized, efficient, and skilled in problem-solving. Eager to learn, contribute to team efforts, and build impactful solutions.

PROJECT

- CodeSync** | *React, Node.js, Express, Tailwind CSS, Socket.io*
 - Developed a real-time collaborative code editor supporting **50+ concurrent users** in a single room.
 - Implemented **live code execution, file management, syntax highlighting, and live group chat** with customizable themes.
- CropXpert** | *HTML, CSS, Python, Streamlit*
 - Developed a crop prediction tool for Indian agriculture (**22+ unique crops**) using XGBoost, achieving **99.32% accuracy**.
 - Integrated data visualizations for enhanced decision-making.
- WhizChat** | *React, MUI, Tailwind, Node, Express, MongoDB, Socket.IO*
 - Developed a real-time messaging app supporting 1:1 and group chats using Socket.IO.
 - Integrated file sharing (images, videos, audio) and online user status to enhance collaboration.

PROFESSIONAL SKILLS

- Programming & Scripting Languages:** C, C++, Python, Java, JavaScript, HTML/CSS
- Databases & Backend:** MongoDB, MySQL, RESTful APIs
- Tools, Frameworks & Libraries:** ReactJS, NodeJS, Git, Linux
- Relevant Courses:** DSA, DBMS, Operating Systems, Computer Networks and Security, OOPS, AI, Machine Learning

CERTIFICATIONS

- Neural Networks and Deep Learning**
Built a strong foundation in neural networks, including forward and backpropagation and deep learning basics.
- Convolutional Neural Networks**
Applied CNN architectures for image classification, object detection, and transfer learning tasks.
- Linear Algebra for Machine Learning and Data Science**
Covered vectors, matrices, eigenvalues, and their applications in machine learning algorithms.

EXTRA-CURRICULAR

- Member of ACM, Programming society of CCET
